

APPENDIX 3

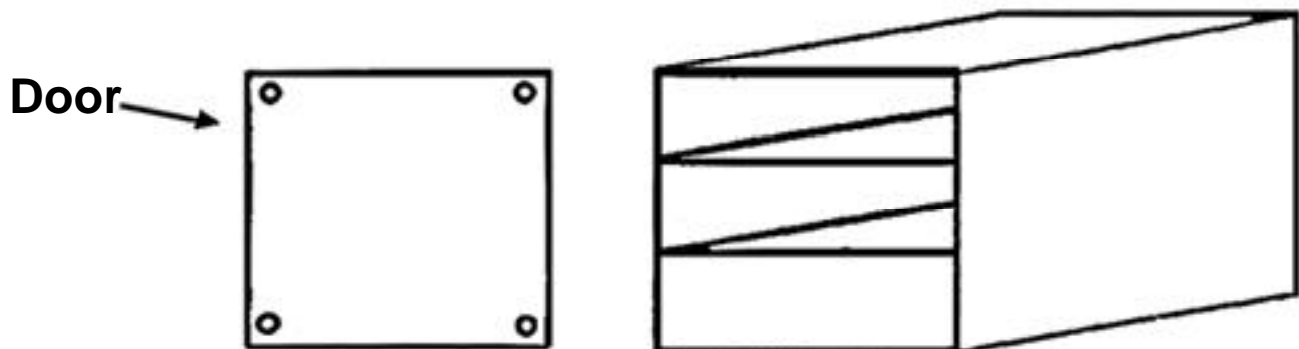

Drying Boxes

Recommended Materials to building Animal Taxidermy boxes:

- 5 - 3/4" plywood
- 5 - sheets plastic shower wall
- 3 - 5/8" plywood
- 30' - 8" flashing
- 4 - Heavy duty castors
- 6 - 3/8" wingnuts
- 10 - 1x2" x 8'
- 10 - 2x2 x8'
- 3/4" self tapping screws
- 8 - 6" hanger bolts
- 2" drywall screws
- 7 - tubes caulking
- 1 quart paint (whatever color you want your boxes)
- 2 gallon deft

Open Box

I find that boxes which open in the front and have "drawers" that pull out are the easiest to work with. However, this is not the only way to build the boxes. Please feel free to be creative and find a box that works for you!
